

Wavendon Parish Council

A Message from the Chairman of the Wavendon Parish Council

We are living in unprecedented times but the Wavendon community has always been resilient and supportive – characteristics which are now serving us well. Various volunteer groups have been established in different parts of the town and are providing valuable, and much appreciated, help for the elderly and vulnerable. Thank you to all those involved. We are also fortunate to have two supermarkets nearby in Woburn Sands and the Tesco close by in Kingston where all the essentials can be obtained – but please make sure that you practice social distancing. We are very grateful to those restaurants and pubs locally which are providing takeaway services – a welcome addition to the domestic menu. The local Health Centre (Surgery) in Woburn Sands, Asplands, continues to provide an excellent service given the difficult circumstances under which they are working but please follow their guidance if you require medical help.

Although the Council's office is closed you can get in touch via email clerk@wavendonparishcouncil.co.uk or phone (01509 844241).

We have also set up a COVID-19 page on the website where you can get all the latest information. The Annual Parish Meeting (planned for 18th May 2020) has been cancelled but the reports which would have been presented will be available on the website – if you have any questions please do not hesitate to get in touch.

Normality will return at some point but, in the meantime, please follow the Government's guidance and stay safe.

David Hopkins
Chairman
Wavendon Parish Council
